Clean Design

Advantage

Say goodbye to cold toilet seats. Three different manual heat settings and further customization through the PureWarmth App allow for heat when you want it.

Create the ideal lighting experience for your space. Four manual light settings and further customization of colors through the PureWarmth app, including the ability to set a personalized schedule.

Bluetooth connected app allows for greater control & customization of temperature and lighting with additional ability of setting a personalized schedule.

Improved look & easy to clean

Easy to wipe down, makes for quick cleaning
